Event of the year 2019...

Unique Focussed Two days

OBstetric skills WORKSHOP

TNMC
Credit hours Awaited

Dear Friends,

Greetings from Salem.

A deeply asphyxiated baby, A mother who turns blue, a uterus which is obnoxiously flabby, a placenta which got stuck, a parturient who is collapsing in front of us, all pose a test of knowledge and spontaneity, and challenge our strength and skills.

Hop on to Salem Obs Express, a focussed two days Obstetric skills workshop hosted by OGSOS, in which experienced and expert faculty guide us through these difficult clinical day to day scenarios.

The programme is spread out to include high risk antepartum, intrapartum and postpartum events through crisp capsules with clear take home messages, visual treat of video presentations and workshop stations to retrain ourselves of these critical events.

This express will have something to offer every practicing obstetrician.. and you are sure to enjoy Salem's hospitality and its famed cultural.

We are Waiting!

Regards,

TEAM OGSOS

For Express Enquiry : ☎ +91 95666 88744
